## GEORGE WASHINGTON 16. WASHINGTON AND LEE 10.

At last the team has thrown off the hoodoo that has so steadily pursued it, and begun to play the ball that all knew it was capable of. It has been believed all along that there was plenty of good material in the team, but somehow it was slow in finding itself. Since the shift of players an entirely new article has been put up and the supporters of the team expect to see it finish a victorious season.

While this score is large, the team can well be proud of its victory, for after the game here the Washington and Lee team defeated the strong University of Pennsylvania team on its own ground, and also the University of North Carolina. In addition the W. and L. team has defeated every team that has beaten George Washington.

The heavy hitting of our team, combined with the wildness of the visiting pitchers enabled us to score fourteen runs in the first four innings, while W. and L. was scoring two, the latter being the result of excellent fielding of G. W.'s men, among the plays being a beautiful double play by Campbell, Price and Weber. Carr pitched an excellent game, although at times he was a little wild. His speed being a strong feature of his pitching. With the outfield composed of Bradley, Senior and Titus, the flies are well taken care of. Campbell, Price and Weber made a strong infield all being especially strong on hitting. Campbell and Weber getting three good hits each. Bradley was next with two. Titus made a beautiful long running catch of a long drive. Senior pulled down four good ones, but had hard luck with the bat, his balls finding their way into the fielders' hands.

The score:

Double play—Campbell to Price to Weber. Hit by pitcher—By Carr, 2. Umpire—Colliflower. Time of game—2 hours and 10 minutes.

## GEORGE WASHINGTON, 12. UNIVERSITY OF GEORGIA, 11.

Again the team showed that it can play ball, this time defeating the strong bunch from Georgia, a team that, on the day before defeated Georgetown 7 to 1. Although the game seemed to be hopelessly lost at the beginning of the ninth, yet with determination the team stuck to the contest and succeeded in snatching a victory from certain defeat, showing a gameness that surprised many of its friends. With the stick they were something fierce, getting a total of seventeen hits. In the sixth inning Thomas succeeded. Hutchinson and his pitching was a revelation. His work was all the more remarkable because of the fact that he was knocked senseless by a hard fall in the sixth, so that it seemed impossible for him to do any more pitching, but the fall seemed only to arouse him and he went into the next inning and succeeding one with an exhibition of pitching that was disastrous to the visitors. Their men who came with a reputation for heavy hitting found themselves unable to solve his delivery. Campbell made the hit that won the game. With two men out and the score a tie he picked out one and drove it past second, bringing in the run that brought victory. Stevenson, behind the bat, played as good a game as has been seen on the field and held the team together to great effect. He, Senior, Campbell and Weber had no trouble in landing on the mighty pitcher, who had administered the defeat to Georgetown.

In the ninth inning the excitement was intense, and the rooting was good to hear, and when the winning run was made it seemed that pandemonium had broken loose.

## GEORGE WASHINGTON 10, WESTERN MARYLAND 5.

Again George Washington is winner. The third successive victory is added to the growing list. The team continues to improve and to fulfill the hopes of its adherents. It can now be said with confidence that the team is coming up to the expectations of those who have all along believed in it. In last Saturday's game it played as good ball as one cares to see. It was quick to see any weakness of the visitors and as quickly took advantage of it. The fielding has improved rapidly so that those errors that were

[CONTINUED ON PAGE 7.]

## PRIZE DEBATE—1906.

At a meeting of the Intercollegiate Debating Council held last Saturday evening it was announced that a member of the first year law class had very generously contributed the sum of twenty dollars to be awarded to the winners of the Prize Debate for this year. This gentleman modestly withholds his name from the student body, but nevertheless the members of the Debating Societies, and of the Law School as well, greatly appreciate the spirit with which this prize is offered.

It was suggested that the Debating Societies should not lose an opportunity to contribute a similar sum, so that the prizes this year may be of exceptional value. Such action on their part will result in stimulating debating and creating additional interest in this part of the work of the University.

Let every one make the prize debate for the present year one of the best ever held.

## ATHLETIC ASSOCIATION ELECTION.

The annual election of the Athletic Association will be held Friday, May 18th, at which time the President, Vice President and Secretary of the Athletic Association and the manager of the baseball team for the coming year will be elected.

Nominations for these offices must be made in writing and must be in the hands of the Secretary on or before May 11th.

Address all nominations to Joseph Brandenburg, College, '07, or Washington Loan & Trust Building.

EDWARD L. REED,  
President.

J. F. BRANDENBURG,  
Secretary.

## NOTICE.

The University Congress will hold a summer session, and will meet every Friday at 8 p. m., beginning Friday, June 15, 1906.

All students of the college and all alumni are eligible to membership, and those interested in securing the opportunity to develop in oratorical practice and debate are invited to join.

## GAME WITH GEORGETOWN.

An early game has been arranged with Georgetown to be played Saturday, May 5 at 4 o'clock, on the Georgetown field.

## MEDICAL.

Three weeks ago we published an article showing that our University has more graduates in the Medical Corps of the army than any other medical school or university in the country, except the University of Pennsylvania and the University of Virginia.

Our alumni are not only among the most successful in the army entrance examinations, but are also near the head of the list of big universities and medical schools in state board examinations for admission to the practice of medicine.

Last year out of about sixty-eight of our graduates taking state board examinations in nearly every state in the Union a percentage of 96.8 was made. Only six other universities were as successful as ours and some of them had a percentage as low as 42.

Those having a better percentage than we, are:

P. C.	
Harvard University.....	98.7
Northwestern University....	98.7
Johns Hopkins University....	98.3
Long Island Medical College..	98.0
University of Minnesota.....	98.0
Cornell University.....	97.0

We come next with 96.8 per cent, while Georgetown University is some distance from the top with a percentage of 90.

The University has a right to be proud of their graduates for making such an excellent showing on these examinations, and the graduate in turn owes much to his Alma Mater for equipping him so well before sending him forth with his sheepskin.

Just five more weeks of "grind" and the boys will reach the green pastures they have been pining for since the first week of spring made its appearance.

## FRESHMAN.

It appears as if the University Freshman baseball team had evaporated.

The three F's—Fearing, Fair and French—occupied the front row in the grandstand at the Western Maryland-G. W. U. game and helped to win the game by their strenuous rooting.

Miss L. (a special student in the Medical Department to one of our students from Utah)—"Mr. Sorensen, are you married?"

Mr. Sorensen—"Yes, this is the 30th, isn't it?"

Messrs. Asbel and Wood report

a delightful time at the dance given at Chevy Chase College by the young ladies, Friday night.

"Mamma, what part of the body is the trombone?"

"No part of the body, my dear."

"Yes, it is, because it says in the paper here that last night while returning from the symphony concert Professor Griedel fell and broke his trombone."

## SOPHOMORE CLUB.

A meeting of the Sophomore Club was held at the home of Miss Person, and in the immediate vicinity, Saturday evening, April 28. A large part of the evening was spent in "Seeing Georgetown," much to the enjoyment of all concerned, policemen, storekeepers and small boys included.

It was decided that the club should go on a picnic to Great Falls on the 30th of May. Miss Swartwont will be the next hostess of the club on May 19th.

## CLASSICAL CLUB.

The regular April meeting of the Classical Club was held on the evening of Saturday, the 21st ult., at the residence of Miss M. Elsie Turner, 414 B Street, N. E. A large gathering of members and invited guests were present. The principal paper of the evening was read by Mrs. Mitchell Carroll on "House-keeping in Athens." A report of the Periodical Committee was presented, by Miss Smith of the committee on "News From the Classical Field" by Mr. Owen, on "New Books" by Professor Carroll. After the adjournment of the regular meeting the society passed a pleasant social hour and enjoyed the courteous hospitality of Miss Turner.

## CHI OMEGA.

On Monday evening the Phi Alpha Chapter of Chi Omega entertained the Columbian Alpha Chapter of Phi Beta Phi by a dance at the college. All present enjoyed a very pleasant evening.

The annual dance given by the Pi Beta Phi Fraternity was held on the evening of Friday of last week at the Washington Club. The local chapter was glad to welcome Miss Fenton from the Woman's College of Baltimore, and Miss Adair Taylor, of Tulane University, New Orleans.

## UNIVERSITY OF CALIFORNIA.

The Summer School of the University of California Will Be Held, Notwithstanding the Recent Disaster.

President Wheeler definitely announced a few days ago that the Summer Session of the University of California will be held from June 25 to August 4. While the University suffered very heavily by the loss of income property in the San Francisco fire, the University buildings and their contents at Berkeley suffered very little damage. The University work will continue as usual, as soon as the refugees, who are housed in the various buildings on the campus have been cared for. The Academic Council, in consideration of the fact that the University Cadets will probably be employed for some time further in guarding property, and the women students of the University will be busy with the relief work, voted to suspend the rules, which requires that final examinations be given before marks for the term can be filed with the Recorder. The students will be passed in their subjects on the basis of the term's work, which was within one week of completion at the time of the earthquake. In cases where the instructor is doubtful as to the students having satisfactorily done the work of the course, examination will be deferred until the opening of college next August. Commencement exercises will be held. The date of the exercises and the form they will take will be announced later.

The members of the faculty are nearly all engaged in the relief work, having rendered particularly valuable aid in the organization of the Executive and Sanitary Departments. Professor Lawson, of the Department of Geology, is at the head of a committee to investigate the causes of the earthquake. Professor Cory, head of the Department of Mechanical and Electrical Engineering, is working with the Citizens' Committee of San Francisco, planning the reconstruction of the new city.

Professor Derleth, Jr., of the Department of Civil Engineering, together with a number of his associates is investigating the effects of the earthquake and fire on the different forms of construction, and the materials used for building in San Francisco. Professor Hyde, Professor of Sanitary Engineering, is at the head of the Sanitary Department of the University Relief Committee, and in addition is making a careful study of the sanitary situation. Captain J. T. Nance, Commandant of the University Cadets, took the regiment to San Francisco on the day of the fire, where a strip of territory twenty-seven blocks long and nine blocks wide, in the residence district, was placed under their protection. They remained on duty in San Francisco until Friday evening, when they were relieved and returned to Berkeley at the request of the citizens of Berkeley, who desired their services in guarding property on this side of the bay. Their work in San Francisco called forth the

friendly praise of the regular troops and police, to whom they rendered every possible service.

Aside from the temporary abandonment of the regular University routine, on account of members of the faculty and the student-body being engaged in relief work, there will be little permanent effect on the University other than a serious financial handicap, owing to heavy loss of income property in San Francisco. It may be impossible for the National Educational Association to meet in San Francisco on account of lack of accommodations. There will be, however, ample accommodations in Berkeley for all who desire to attend the Summer School. Aside from the pleasure of attending courses given by some of the greatest scholars and teachers in Europe and America, the great opportunity of watching the reconstruction of a great city should attract an unusual number to this year's Summer Session. All inquiries should be addressed to James Sutton, "Recorder of the Faculties," University of California, Berkeley, California.

## RIFLE CLUB.

Great interest is now being taken in the organization of a Rifle Club to compete with teams of several other universities from whom challenges have been received, namely, Princeton, Pennsylvania and Lehigh.

This project was given much importance by the action of the Board yesterday in recognizing this phase of athletics and putting it on the same basis as baseball and football. The same importance is now attached to competition in rifle shooting as to other athletic contests.

There are a number of excellent shots in the University, one of them having been successful in competition with the best shots of the country, and there is no reason why our team cannot win in a contest of this kind.

A meeting for the purpose of organizing and perfecting plans, looking to this contest with Princeton will be held on Friday, May 4, at 6:35 p. m., in Hall "A," Jurisprudence. Every one interested in rifle shooting is urged to attend and help make as good a team as possible.

## UNIVERSITY ASSEMBLY.

The subject of the President's talk at Assembly yesterday was "Uses." Two solos were sung by Miss Bethune, "Afar in the Wood," and "Under the Blossoming Trees."

## PI BETA PHI.

On Saturday evening, April 28, the active chapter of Pi Beta Phi united with the Alumnae Club in a banquet held at the Tea Cup Inn, commemorating the thirty-ninth anniversary of the founding of the National Fraternity. The event was an exceedingly happy one for the participants, and the toasts, college reminiscences and fraternity songs made the evening a success.

## SHIRTS TO ORDER.

We make Shirts to order for Men, for dress and business wear, and guarantee same. Our experience in this department covers a period of many years. The materials we use are of the highest grade, the workmanship excellent, the fit perfect.

THURSDAY, MAY 3, 1906.

The work of the baseball team in the last three games has been all that the students could ask of it. It has defeated two teams that have beaten the best college teams. It has shown that it is especially strong at the bat and as the newly-placed fielders are getting used to their places the errors are becoming fewer. The team now needs the support of the University, the presence of the students on the field. There is no doubt that the enthusiastic encouragement and "rooting" of the few at the Georgia game was largely responsible for the victory. We have now before us several of our most important games, and if the team feels that the students are interested in its success and if they evince this interest the team will bring success to the University. Attend the next game.

Word comes from the East that a new word has been coined at Syracuse which bids fair to make such words as spooning, flirting and fussing relics of antiquity. The new term is "snuggling." Its origin as first created some curiosity, but investigation showed that it originated on April 8th, 1874, when Prof. French in speaking of the improper use of the reading room said, "It doesn't look well to see a young lady and gentleman snuggle down so closely." The term "fussing" is said to have originated from the caustic reference of a chancellor to "fudge parties and other ways of fussing away the time."

### NOTICE.

Students, when you want to buy anything, or transact business of any sort, look in this column and go to those who patronize us. Advertisers believe in reciprocity. They are glad to advertise with us if the students trade with them. Without them the paper could not be published.

You will be conferring a great favor on all if you merely mention that you saw their advertisement in THE HATCHET. Do not go to a non-advertiser in preference to an advertiser.

TO FILL  
The ORIGINAL and ONLY GENUINE  
**CONKLIN'S**  
SELF-FILLING PEN

Simply dip in the ink, press with the thumb, and the CONKLIN PEN is filled and ready for instant use. It is simple, convenient, efficient, with no complex mechanism and nothing to get out of order.

The elastic ink reservoir is compressed by the presser bar under the thumb, and, when released, instantly draws in the ink through the feed channels at the point. The quickly adjusted lock-ring prevents ink from being forced out again. Feeds regularly until the last drop of ink in reservoir is used. Always responds without kick or balk. Cleans itself as easily as it is filled. Fully guaranteed.

If your dealer does not handle the CONKLIN PEN, let us make you our Special Offer to Fountain Pen Users. Full information, with illustrated catalogue, sent upon request. Sold by dealers everywhere.

[CONTINUED FROM PAGE 1.]

so sickening were absent. In hitting, too, the team was as strong as ever, Stevenson getting three good ones, Price and Bradley two each. Campbell played a splendid game, getting five chances and taking them all without an error. He also drove a beautiful two-bagger. Orrison, at third, for the first time in the game, played a remarkably good game, accepting six out of seven chances and making a good hit. Carr's pitching was effecting, only seven hits being made off him and seven were struck out.

Umpire—Mr. Colliflower. Time of game—2 hours.

## COLUMBIAN DEBATING SOCIETY.

The last regular meeting of the Columbian Debating Society was held last Friday evening. The question debated was the one selected for the final Columbian-Needham debate: Resolved, That the immigration of the laboring classes into the United States should be further restricted by law.

Many good points were brought out in the course of the discussion, which made the debate an interesting one. The affirmative speakers were Messrs. H. L. Lewis, M. B. Goodall and J. P. Whittinghill, and their opponents were Messrs. H. H. Riddleberger, L. A. McGee and A. J. McDonald.

The judges rendered their decision in favor of the negative and gave honors to Messrs. Riddleberger and Lewis.

## UNIVERSITY CONGRESS.

The Congress met in regular session Saturday, April 28, 1906, and

with the usual spirit, House Bill No. 50, regarding child labor, was discussed. The bill being placed upon its final passage, was carried by a large majority.

The Congress, after a long discussion, decided to adjourn until after the college closed for the year, as examinations are close at hand.

## THE OLYMPIC GAMES.

The American Athletes are proving to be the stars in the game now being held in Athens. Martin J. Sheridan, of the Irish-American Athletic Club, distinguished himself by winning sixteen points last week. In the final heat for the 100 meters dash, Archie Hahn, Milwaukee A. C., was first, F. R. Moulton, Kansas City A. C., second; Barker, Australia, third. Time, 11.1-5.

In the 1500 meters race, in the first heat nine men started. It was won by Lightbody, Chicago University; Sullivan, New York, third. In the second heat with eleven men, two Englishmen were first and second, with Bonhog and Cohn, of New York, third and fourth. In the broad jump, Prinstein, New York, was first; O'Connor, England, second; Friend, Chicago, third. In the 400 meter trials, these qualified: Hillman, New York; Pilgrim, New York; Bacon and Moulton, Irish-American Athletic Club, U. S. A.

## UNIVERSITY OF PENNSYLVANIA FIELD AND TRACK MEET.

Michigan won the four-mile relay at the big meet on Franklin Field last Saturday, breaking the world's record of 18 minutes 25.3-5 seconds held by the same university. The time was 18 minutes 16.2-5 seconds. Pennsylvania was second and Yale third. The one-mile relay was won by Pennsylvania in 3 minutes, 23.1-5 seconds; Syracuse was second and Chicago third.

The two-mile relay was won by Dartmouth in 8 minutes 9.3-5 seconds; Columbia was second and Pennsylvania third.

The 100-yard dash was a dead heat between Castleman, of Colgate and Dick Dear of Pennsylvania. Dear refused to run of the heat and it was given to Castleman.

The pole vault was a tie at 11 feet 8 inches between Phillips, of Cornell and Swain, of Pennsylvania. On the toss of a coin Swain won.

The high jump was won by Patterson, ex-Michigan, at 5 feet 11 inches.

Mount Pleasant, Carlisle Indians, won the broad jump with 23 feet 1 inch.

Harvard has refused to play Pennsylvania in football next fall, so Pennsylvania has arranged a game with the University of Michigan to be played in Philadelphia on November 17.

## CLOTHES OF CHARACTER

The Wineman Way of Tailoring is the way that pleases the younger men. It's different in the case of each patron. We individualize our togs—make them different in construction—and from a selection of over eight hundred wools—make them different in materials. Let us show you our Spring ideas.

The better  
kind of tailor.

## ABOUT EDUCATION.

George Washington graduates are well educated men. As well equipped as graduates of the best colleges and universities in the country—and better—notwithstanding that a large number of them work all day and study all night, and then study a little before breakfast. There is one cardinal reason for this. It is a matter of desire.

To get an education a man must desire it, and to desire it he must see the need for it. Our men, generally speaking, have been out of school and at work for a few years before entering college, have seen where they are lacking and set out to strengthen their weak points. And they do it.

Socrates said, four hundred and twenty years before Christ, "If I had my say I would set all the young folks to work and send all the old ones to school." Ditto.

After a man has battled with actual life for a few years he feels the need for an education, and the twenty-mule team which hauls the borax from the fields of Nevada and California would be unable to drag him away from his studies and prevent him from improving his opportunities.

An education cannot be forced upon one. (The compulsory education law of Massachusetts to the contrary notwithstanding.) It must be won by wanting it and working for it. And the more sacrifices required and the harder one must work for it the more the education is appreciated. The best educated men in history are those who had to work and make sacrifices in order to acquire their knowledge. From what university did Lincoln graduate? The "University of Hard Knocks" methinks.

Men who want an education and work for it are the ones who get it; our men are in this class and hence are well equipped, broadly educated men.

Those who are "sent to college" have not, as a rule, experienced the need for an education, and as a rule do not make as good students as those who "go to college."

"You may send a boy to college but you cannot make him think."

J. R. B.

Ex-President White, of Cornell University, in an address to the alumnae of that institution, said that much of Cornell's success was due to its woman students. He thought the only danger was that woman students undermine their health and consequently he emphasized the importance of the gymnasium.

## An Inimitable MERTZ SPECIAL

### Spring Suits to Order in the "Mertz way" for \$10

The Mertz-tailoring business is striking evidence of what can be accomplished by the combination of energetic enterprise and modern, systematic methods. A business could not grow to such proportions unless there was unusual merit back of it.

The merit of Mertz-tailoring does not lie entirely in small prices. There is merit in the fabrics shown, and there is cumulative merit in the cutting, the making, the fitting and the finishing of every garment turned out.

Here's a striking example of the special values Mertz offers.

Choice of a big line of high-grade fabrics in all the latest plain and fancy and gray mixed fabrics to order in the inimitable "Mertz-way"—fit and satisfaction guaranteed—for..... \$10

## COLLEGE NEWS.

Smith College has a female Raffles. Miss Gilmaur M. Wilson, a nineteen-year-old girl who successfully posed as a member of the freshman class, recently admitted in the district court that she was the author of a series of mysterious thefts in the college houses. Miss Wilson's arrest has caused the greatest sensation Smith College has experienced in many years.

The Rev. Dan F. Bradley recently chose for the subject of his talk before the College Club of this city, "A College Woman; the Winning of the West." The Rev. Dr. Bradley said in part: "Two-thirds of the college women of the United States come from the northern and western states. Colorado has a larger number of college women than Massachusetts in proportion to population. Ohio and Illinois can boast of the largest number of young women receiving higher education. It is a significant fact that the leadership is passing from the men of the East to the men of the West. I attribute this condition to the fact that the mothers of western men have had wider opportunities for education than their sisters of the East. This is due in a large measure to the influence of

two generations of college women."

Reinschild, right tackle for Michigan, has dropped out of school, being the sixth of Michigan's eleven to be disqualified by the faculty on eligibility rules.

Roseth, the star fullback, has left Wisconsin on account of unsettled conditions. Dering, the crack tackle, has also announced that he will not return next fall, leaving Gelbach as the only regular of last year's eleven.

Miss Harriet A. Boyd, America's famous woman archeologist, is soon to abandon her chair of archeology at Smith College and will become the bride of Prof. Charles E. Hawes of Cambridge University, a noted authority on archeology and anthropology. Miss Boyd met Professor Hawes among the ruins of Crete, where she had been sent to examine the buried prehistoric cities. They pursued their investigations together.

The faculty of Stanford University has expelled Editor Allen, of the *Daily Palo Alto*, the official student organ, for refusing to stand with the faculty in its opposition to hazing.
